A. Definition of Insured Mortgages

Borrowers purchasing a Residential house with a down payment of less than 20% of the purchase price require Mortgage Loan Insurance. The insurance products are offered by Canada Mortgage and Housing Corporation (CMHC) and other authorised insurers to provide opportunity for borrowers to purchase a home with a down payment as low as 5% by selecting their choice insurer.

C. Discussion on Potential Impact on Portfolio in the event of an economic downturn:

The Bank regularly conducts stress tests to consider the potential impact on its Residential mortgage portfolio due to adverse economic conditions, unemployment and interest rate scenario which will shape the curve going forward. In addition, our ongoing efforts to spread the risk across the portfolio with product and profile mix have shown consistency in risk profiling. We keep a close watch on the changes taking place in the residential mortgage market.
