

## Residential Mortgages Disclosure

### Third Quarter of 2019

#### A. Definition of Insured Mortgages

Borrowers purchasing a Residential house with a down payment of less than 20% of the purchase price require Mortgage Loan Insurance. Mortgages sanctioned with such insurance are called "Insured Mortgages". The insurance product is offered by Canada Mortgage and Housing Corporation (CMHC) and other authorised insurers to provide opportunity for borrowers to purchase a home with a down payment as low as 5%. All the insured mortgages at SBIC have been insured with CMHC only.

#### **C. Discussion on Potential Impact on Portfolio in the event of an economic downturn:**

The Bank regularly conducts stress tests to consider the potential impact on its Residential mortgage portfolio due to adverse economic events, such as the impact of a downturn in real estate values in Vancouver. The results indicate that since the bank has overall RM exposure of more than 63% in GTA and more than 60% of un insured is also in GTA which has shown consistency in value and growth. Accordingly, the bank has adequate capital for such potential impact to be absorbed easily.
